

# STOCKOSORB®

Advanced Hydrogel Technology  
improves Alfalfa harvest

Trial conducted by Miles Sheldon with Brandt Consolidated, Inc. at Tos Farm, Hanford, CA

TRIAL DATE: January 2013

CROP: Alfalfa

## Benefits realized using STOCKOSORB®

- Improved sprout growth and yield
- Faster recovery from harvest
- Fuller crops with less dry spots

**STOCKOSORB®**  
water + soil management

Technical information

## Advanced Hydrogel Technology Trial

**Crop:** Alfalfa

Trial conducted by Miles Sheldon with Brandt Consolidated, Inc. at Tos Farms, Hanford, CA

**Trial date:** January 2013

**Application Rates**

STOCKOSORB® was broadcast at 20 lbs per acre and then disced in. The field was then planted over with alfalfa. Anecdotal evidence was taken utilizing photos. The regrowth was observed after each cutting and evaluated prior to cutting.

**Conclusion**

Stockosorb made the alfalfa grow faster initially as well as after cuttings. More visual proof was seen when temperatures reached higher levels. The fields planted with STOCKOSORB® had less dry spots and the alfalfa was thicker and more green in color.
